

How To Use

Social Media Loyalty Guide

Search Username

Searching a user is easy, you just head to our homepage (RecentFollow.com) and enter the username.

Keep Track

Regularly check your partner's follower and following numbers directly on their profile. Then search using our platform.

Screenshot!

Screenshot any new suspicious follows and take a look at their account or stories using our anonymous viewer.

Timing Is Important

Always check whenever your partner is unresponsive, out late, partying, or traveling.

Followers Matter Too

Checking recent followers can reveal that your partner is giving out their username or being unloyal.
